

ISG Hires New Consultant

ISG is proud to announce the addition of a new consultant, Mark Lovstrom.

Mark Lovstrom is the newest addition to ISG's growing consulting staff. Mr. Lovstrom specializes in Deltek Vision's Resource and Project Planning, as well as CRM modules and is a great resource for ISG and its clients. As an experienced Project Manager in the IT and A/E industries, Mark brings a wealth of "day-to-day" operational knowledge to our clients.

Mark became the Vision Project Manager for a large engineering firm in 2005, and successfully managed their implementation of all Vision modules. Since 2007, Mark worked as an outside consultant with ISG in the implementation and consulting group.

Joe Dixon, Director of Professional Services, said, "Mark brings an extremely dynamic skill set across all aspects of the Vision product. Coupled with his strong project management talents, Mark is extremely organized, forward thinking, and a problem solver with the ability to think outside the box to create enterprising solutions for our clients."

About ISG

As a full-service provider, **Innovative Solutions Group, Ltd (ISG)** is the largest **Deltek** Vision Premier Partner that offers a portfolio of **consulting, system integration, and application hosting services** to project-based clients. Clients benefit with every implementation from our tenured consultant's knowledge of industry business practices and direct hands-on expertise. A virtual company truly practicing green business processes, ISG can quickly respond via web applications to anyone in the world. ISG has built a tremendous track record, over 800 firms, of successful implementations using ISG's Collaborative Approach Methodology.
