Site newsletter

December 2014 (visit our project website at www.isgplc.com/ashworthbuilding)

Progress so far.....

The demolition works of this phase have been completed. As you can see from the picture below the team have now moved onto installing new windows on the third floor. Internally we are progressing with the first fix installation of the new mechanical and electrical systems. Partitions are being erected to form new rooms and we are fitting the ventilation ducting.

If you would like to look at the progress being made remember the team have left glass panels in place at either end of the floor to act as viewing panels.

The site will shut from the 23rd December and will reopen on the 5th of January. If you have any queries over the holiday period our team's contact details are shown on the right.
