

Hockey Pavilion

ISG

Site newsletter

December 2014 (visit our project website at www.isgplc.com/edinburghacademy)

Progress so far....

The hockey pavilion is progressing well and the project is on schedule. The initial ground works are complete and you will probably have seen that the steel frame has been erected.

Our next focus will be on the exterior of the building. We will start to install timber panels to the external walls and commence the construction of the roof.

Considerate Constructors Scheme

ISG is a founder member of the Considerate Constructors Scheme (CCS), and we have engaged successfully with the scheme for many years.

The CCS inspector has been on site to visit the hockey pavilion. In each of the five categories we have been scored as very good or excellent. The inspector commented "Paul and his team are managing a very good project, operating at a high level of considerate construction".

Holiday period

The site will shut from the 23rd December and will reopen on the 5th of January. If you have any queries over the holiday period our team's contact details are shown on the right.
