ISG

November 2014

Welcome

This is our first update on our progress at the Edinburgh Academy Hockey Pavilion. Construction started in September and is due for completion in February 2015.

The project

ISG are replacing the school's existing hockey pavilion with a modern, high-specification facility incorporating six changing rooms, referee's changing room and a covered terraced area for spectators. The new circa 5,400 sq ft pavilion has been sensitively designed and carefully oriented within the existing tree line on the Inverleith Place site to minimise its visual impact on surrounding properties.

Considerate Constructors Scheme

ISG is a founder member of the Considerate Constructors Scheme (CCS), and we have engaged successfully with the scheme for many years. The CCS is a national initiative which aims to promote improvement within the construction industry by encouraging best practise beyond statutory requirements.

The Hockey Pavilion is registered with the CCS and we will ensure that our project complies with the five aims of the scheme:

- Care about appearance
- Respect the community
- Protect the environment
- Secure everyone's safety
- Value our workforce

Site opening hours

The opening hours are below. If there are any changes to these we will ensure that you are kept up to date.

Monday to Friday: 7.30am to 5.00pm
Saturday: 7.30am to 3.30pm (as required)
Sunday: Site closed

Working with the school

Working on an education project gives us a great opportunity to engage with the students and we have already had our first group of pupils visit us on site. This allows them to get an insight into what happens on a construction site, and allows us to talk about the dangers of playing on live sites. Further visits and initiatives will follow, watch this space for updates!

What the project will look like

Here is a sneak preview of what the completed building will look like:

For further information or to discuss how we could help your project please call us on 0141 447 0300
